

SUMMER SHOWERS

Is a moving street spectacle, starting and finishing in the same place. The gnomes are responsible for leading us along a path so that we can travel through the four showers.

"Summer showers" consists of 7 musicians (2 "grallas", 2 trombonists, 1 "tarota" and 2 percussionists) and 5 actors-manipulators. The show lasts an hour, but it can be split into parts and therefore be adapted for different programme planning.
